DETAILED ACTION

1. This Office Action is in response to an AMENDMENT entered Aug 13, 2008 for the patent application 10/695539 filed on Oct 28, 2003.
2. All prior office actions are fully incorporated into this Office Action by reference.

Status of Claims

3. Claims 8-20, 22-23 and 25-27 are pending. Claims 1-7, 21 and 24 are cancelled.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 8-20, 22-23 and 25-27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

“Print resolution characteristic” has not been defined in the specification. It is not obvious to one of ordinary skill in the art as to which characteristics are being

considered when the applicant claims "selected print resolution characteristic."

Appropriate correction is required.

Response to Argument

6. Applicant's argument regarding Claims 8-20, 22-23 and 25-27 rejected under 35 USC 103(a) were persuasive and hence those rejections have been withdrawn.

Conclusion

7. Claims 8-20, 22-23 and 25-27 are rejected.
